September 2010

Dear Prayer Warriors,

The Lord has blessed this summer with opportunities to preach at various churches, see more people saved, and speak at patriotic venues throughout the state. There was also an opportunity to collect millions left to us in a foreign account if we would just send our bank information for the transfer... we decided to pass on that one.

An upcoming event is the Freedom - Liberty Conference at the Convention Center in Fort Mitchell, KY. At the conference (Oct. 1-2) there will be multiple sessions about various topics, including sessions I will teach about America's Christian heritage and practical things you can do to make a difference. You can find more information about the conference at www.ky912.com.

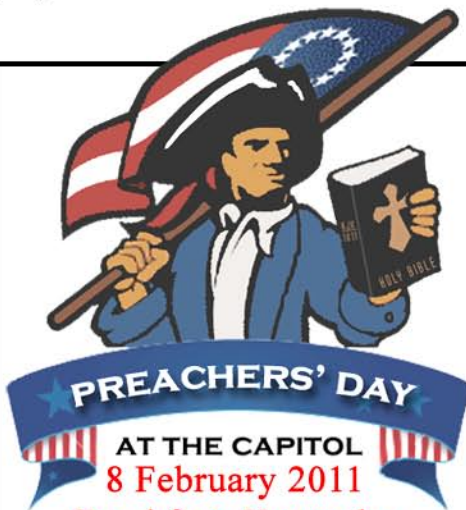

In addition to preaching on Sundays, during the week the ministry in the State Capitol continues. There are committee meetings throughout the summer, and it's been a good opportunity to meet with some legislators. I sure miss Bro. Joe's company up there in Frankfort, but do keep in touch with him on the phone. Please keep his health on your prayer list.

Lee recording the ministry's weekly radio broadcast, "Take America Back." It's a 15-minute program with news, humor and inspiration, teaching ways Christians can help "Take America Back."

You can get a list of the air times and stations on our website.

Collectively, preachers speak to more people on a weekly basis than any politician in the state. This is a tremendous influence and now more than ever, Christians need to be making their presence known and voices heard in society and government.

For this reason, I hope each preacher in Kentucky will be able to attend "Preachers' Day at the Capitol." It will be a day when God's men can learn about newly proposed laws with moral implications, meet with their area's legislators, learn what they can do to make a difference, and much more!

If you would like to attend "Preachers' Day at the Capitol" please fill out the enclosed registration form and mail it back in the return envelope.
